

Sound Level Meter Tripods

We offer a choice of tripods designed to ensure optimum measurement conditions for various applications.

Sound Level Meter Tripod **ST-80**

Intended for general acoustic measurements, this tripod serves as a firm base for mounting a sound level meter and microphone.

- Max. Height **1460 mm**
- Min. Height **570 mm**
- Mass **1500 g**
- Leg Sections **3**

All-weather Windscreen Tripod **ST-81**

Designed for use with an all-weather windscreen, this tripod is suitable for unattended measurements.

- Max. Height **2150 mm**
- Min. Height **1350 mm**
- Mass **3200 g**

Tripod Extension Rod **ST-80-100** (for ST-80)

Used together with the ST-80, the extension rod makes it easy to position the sound level meter for specific use.

- With extension rod
- Max. Height **2060 mm**
 - Min. Height **1170 mm**
 - Mass **610 g**

Compact Tripod (with level) **5 SLIK**

Light weight and small dimensions make this tripod easily portable. A 4-step extension function from low to high covers various measurement position requirements.

- Max. Height **1220 mm**
- Min. Height **405 mm**
- Mass **695 g**
- Leg Sections **4**

All-weather Windscreen Tripod **ST-88S**

Designed for aircraft noise measurements. When measuring aircraft noise coming from above, the microphone needs to be positioned at a certain height to prevent sound reflected by the installation location surface from affecting the measurement. This tripod enables a height of 4 meters, with easy installation and maintenance. Installation of an aircraft sound identification unit is supported.

- Max. Height **4000 mm**

(Please contact us regarding extension capability.)

How to read the catalog specifications

[Max. Height]
Overall elevation height with fully extended legs

[Min. Height]
Lowest elevation height with deployed legs

[Mass]
Total mass (weight) of tripod

[Number of leg sections]
Shows the number of leg sections

All-weather Windscreen Tripod

Attaching a windscreen to the microphone and preamplifier guards against water intrusion for example from rain droplets etc.

When using the ST-81 tripod, height adjustment from 1 550 mm to 2 350 mm is possible.

- IPX3 class waterproof rating (protects microphone / preamplifier from temporary precipitation)
- * Degrees of protection provided by enclosures (IP Code) JIS C 0920:2003

All-weather windscreen WS-15 usage example

All-weather windscreen WS-15

Combination examples

- Head of all-weather Windscreen **WS-15**

Option

- Microphone, Preamplifier

Option

- 7P microphone extension cable (with reel) **EC-04 series**
(with reel, 30 m etc.)

Option

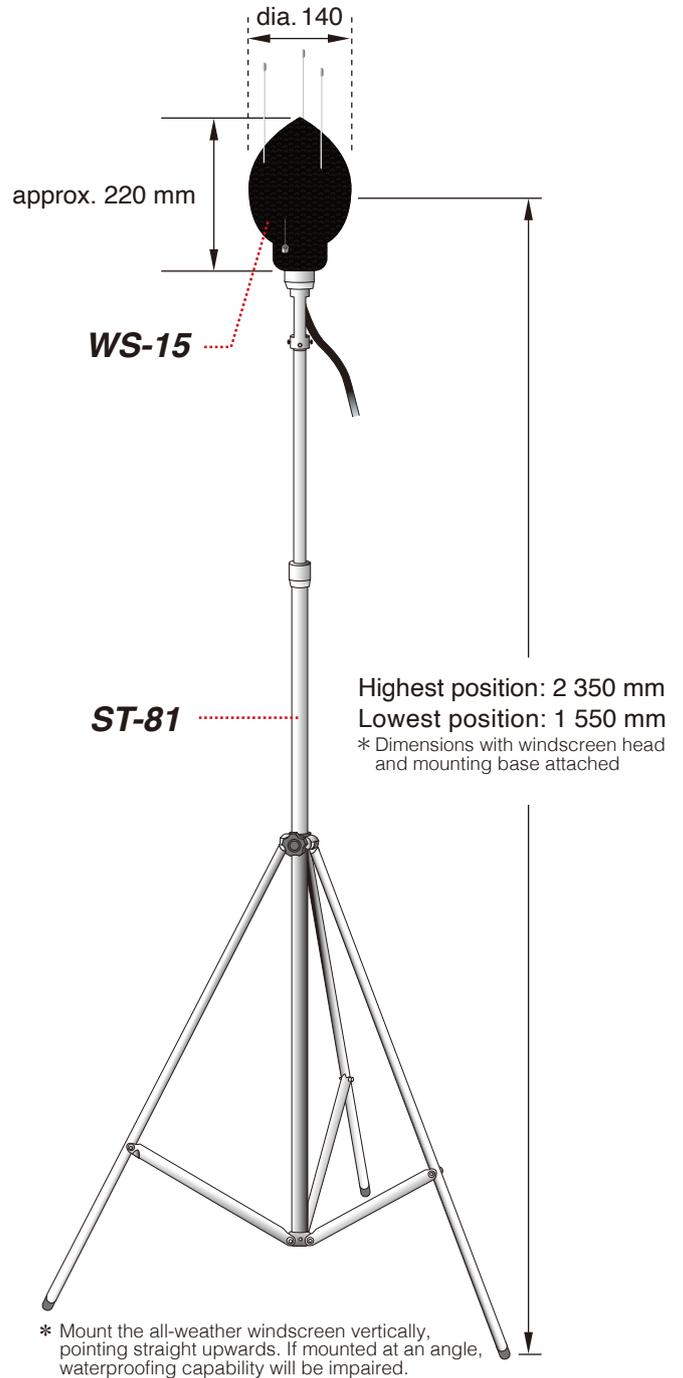

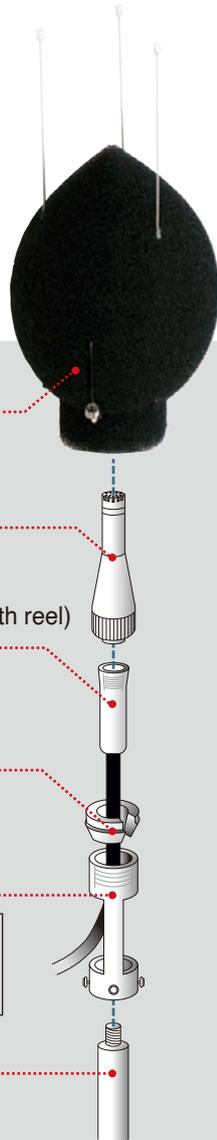

- Windscreen mounting adapter **WS15006**
(for EC-04 series)

- Mounting base (supplied with WS-15)

When mounting the WS-15 on the ST-81, the adapter supplied with the WS-15 and the adapter supplied with the ST-81 are not used. Attach the ST-81 directly to the mounting base.

Option

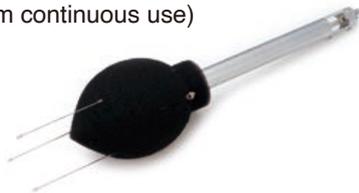

- Tripod **ST-81**

All-weather Windscreen

(Custom product for Environmental Noise Monitor NA-39A / Supports long-term continuous use)

WS-13
